

# Year 2 Gold

In Science we are discovering sound. We held the balloons and we felt the sounds that were very loud. We created a sound table. We brought things that make sounds to school. We sang "This old Man."

In Literacy we have been reading books about colours and eggs and a family called The Hobsons.

We have also been practising the alphabet and making long and short sounds.

In maths we have been talking about numbers and shapes and length.

We really love Edudance on Wednesdays.

In Italian we have made masks for Carnevale. Drop by our classroom and have a look.

We enjoyed the Scitech Incursion and had fun trying to blow the biggest bubbles.
